Vines are located in the heart of the Côtes du Rhône terroir on clay-limestone and loamy soils.

WINEMAKING & AGING

From the vine to the bottle, the focus is on fighting microbial potential problems while preserving the quality level of the wine. Inerting is carried out with meticulous control. Alcoholic fermentation is quickly processed, under temperature control at 24°C to avoid any deviations. The wine is then microbiologically stabilized by filtration.

Fining: No.

Filtration: Tangential.
